

## Supplier Agreement: Certified Sustainable Palm Oil

The Palm Oil industry is linked to major issues such as deforestation, habitat degradation, climate change, animal cruelty and the abuse of indigenous people's rights in countries where it is produced. Palm oil buyers play a key role in shaping this industry's growth in a responsible manner.

MOM's Organic Market goes to great lengths to ensure our products do not exploit the environment or human life. We are committed to only carry products that use [RSPO certified sustainable palm oil](#). Sustainable supply chain models we accept include Identity Preserved, Segregated, and Mass Balance. It is for that reason that we ask you to answer the following questions about your palm oil supply chain:

1. Do you use RSPO certified sustainable palm oil?
2. Which RSPO supply chain model do you use? Please list all that apply.
3. Please provide RSPO/CSPO certificates relating to the products you supply.
4. OR, does your company or palm supplier have a fair labor/sustainable palm program or policy? If so, please explain and submit supporting documents.
